

# Coolers/Chillers

IWP stocks high quality reliable coolers. The “Deluxe” and “Ultra” coolers feature advanced controls. The “Contemporary” and “Standard” and “Classic” feature the simplest designs ideal for the highly competitive rental market. Our unique countertop unit is compact and fits on almost any counter top. Under counter Chillers are popular for light commercial or residential application.

Add a leak detector whenever a system will be installed in a location where water damage can occur.
